## Therapy Dogs of Johnson County

### WE PROVIDE LOVE ONE WAG AT A TIME

## WHAT WE DO

Our teams visit people of all ages, often at times in their lives when they are experiencing stress, or physical or psychological illness. The pets provide a calming presence, a non-judgemental ear, and unconditional love.

Some teams participate in the Read With Me™ program, which provides children an opportunity to improve cognitive and social skills by reading to animals.

Our group also encourages registration of more Pet Partners teams by providing local classes and evaluations, with guidance as needed during the registration process.

## ABOUT US

TDJC is a volunteer therapy dog group comprised of registered Pet Partner teams. Our purpose is to bring the benefits of the human-animal bond to members of our community via animal-assisted therapy and/or animal-assisted activities. We serve Johnson County Iowa and surrounding areas.

**Pet Partners**  
*Touching Lives, Improving Health*

Pet Partners is the nation's largest nonprofit which registers volunteer teams of human handlers and their animals, who then provide Animal-Assisted Interactions. With the highest caliber curriculum in the industry, Pet Partners trains volunteers and evaluates them with their pets. They have the industry's highest safety standards, continuing education and re-certification requirements.
